The performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-800-762-7085 or visit [www.cavalanhillfunds.com](http://www.cavalanhillfunds.com).

On December 28, 2020, the Cavalan Hill Mid Cap Core Equity Fund became the Cavalan Hill Mid Cap Diverse Leadership Fund and amended its strategy to focus on diverse leadership and to invest primarily in companies that meet the Environmental, Social, and Governance criteria. The performance before December 28, 2020 is not representative of the Fund's current investment strategy. The change in investment approach may affect the Fund's performance.

Certain fund expenses may have been waived or reimbursed. Had waivers and reimbursements not been in effect, the performance quoted would have been lower. Currently, contractual fee waivers are in effect from December 28, 2021 through December 31, 2022. Class A and Class C Shares are subject to a 1.00% Maximum Deferred Sales Charge (Load) on shares purchased without an initial sales charge and redeemed within 12 months of purchase. Performance data does not reflect the Maximum Deferred Sales Charge. If reflected, the load would reduce the performance quoted.

## Lipper Rankings\*

Category: Lipper Mid-Cap Core Funds

	Rank	Percentile
1 Year	125/305	41
3 Years	59/285	21
5 Years	78/259	30

Rankings are for Institutional Class and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes will differ due to differences in expenses, fees, or sales charges. On December 28, 2020, the Caval Hill Mid Cap Core Equity Fund became the Caval Hill Mid Cap Diverse Leadership Fund and amended its strategy to focus on diverse leadership and to invest primarily in companies that meet the Environmental, Social, and Governance criteria. The performance before December 28, 2020 is not representative of the Fund's current investment strategy. The change in investment approach may affect the Fund's performance.

## <sup>†</sup>Morningstar (as of June 30, 2022)

Morningstar rankings are based on a fund's average annual total return relative to all funds in the same Morningstar category. Fund performance used within the rankings, reflects certain fee waivers, without which, returns and Morningstar rankings would have been lower. The highest (or most favorable) percentile rank is 1 and the lowest (or least favorable) percentile rank is 100.

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

Caval Hill Mid Cap Diversified Leadership Fund was rated against the following numbers of Mid-Cap Blend funds over the following time periods: 367 funds in the last three years, 325 funds in the last five years.

The Cavanal Hill Funds offer an array of equity, fixed income and money market funds for both retail and institutional markets and support a wide range of investment objectives. From conservative income to growth-oriented goals, we offer choice, flexibility and opportunity for diversification.

## Investment Risks

Equity securities (stocks) are more volatile and carry more risk than other forms of investments, including investments in high-grade fixed income securities. The value of the Fund's investments may decline due to an increase in interest rates. In general, the longer a security's maturity, the greater the interest rate risk. The Fund's yield may decrease due to a decline in interest rates. International investing involves increased risk and volatility. Mid- and small-cap companies may be more vulnerable to adverse business or economic developments. In making investments consistent with ESG considerations, the Fund may choose to sell, or not purchase, investments that are otherwise consistent with its investment objective. The application of ESG criteria will affect the Fund's exposure to certain issuers, industries, sectors, regions and countries and may impact the relative financial performance of the Fund - positively or negatively - depending on whether such interest are in or out of favor.

## \*Lipper (as of June 30, 2022)

The Lipper ratings for **Preservation** reflect the funds' historical loss avoidance relative to other funds within the same asset class. Preservation ratings are relative measures, rather than absolute measures, and funds named Lipper Leaders for Preservation may still experience losses periodically; those losses may be larger for equity and mixed equity funds than for fixed income funds. Lipper ratings for **Expense** identify a fund that has successfully managed to keep its expenses low relative to its peers and within its load structure. Lipper ratings for **Consistent Return** identify a fund that has provided relatively superior consistency and risk-adjusted returns when compared to a group of similar funds, which achieve high ratings for Consistent Return, may be the best fit for investors who value a fund's year-to-year consistency relative to other funds in a particular peer group. The Lipper ratings are subject to change every month and are based on an equal weighted average of percentile ranks for the Expense metrics over three-, five-, and ten-year periods (if applicable). The highest 20% of funds in each peer group are named Lipper Leaders with a rating of 5, the next 20% receive a rating of 4, the middle 20% are rated 3, the next 20% are rated 2, and the lowest 20% are rated 1. The Cavanal Hill Mid Cap Diverse Leadership Fund, in Lipper's Mid Cap Core Fund classification received the following ratings for the three-, five-, ten-year periods, respectively, for the A Shares: Preservation: 5(12357 funds), 5(11141 funds), for the Inst Shares: Preservation: 5(12357 funds), 5(11141 funds), for the Inv Shares: Preservation: 5(12357 funds), 5(11141 funds). ## Important Disclosures

<sup>1</sup> The Russell Midcap<sup>®</sup> Index measures the performances of the 800 smallest companies in the Russell 1000<sup>®</sup> Index. The index is unmanaged and does not reflect the deduction of the expenses associated with a mutual fund, such as investment management and fund accounting fees. The Fund's performance reflects the deduction of fees for these services, but does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Investors cannot invest directly in an index.

<sup>2</sup> **Turnover Ratio** is a measure of trading activity for a rolling 12-month period represented by the percentage of a fund's assets that have changed over the course of the time period. **Price-to-Earnings (P/E) Ratio** is a price of a stock divided by earnings per share. For the Fund, Cavanal Hill uses the weighted harmonic average to calculate P/E in order to prevent outliers from skewing results.
