The performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-800-762-7085 or visit www.cavalanhillfunds.com.

Certain fund expenses may have been waived or reimbursed. Had waivers and reimbursements not been in effect, the performance quoted would have been lower. Currently, contractual fee waivers are in effect from December 28, 2021 through December 31, 2022. Class A Shares are subject to a 1.00% Maximum Deferred Sales Charge (Load) on shares purchased without an initial sales charge and redeemed within 12 months of purchase. Performance data does not reflect the Maximum Deferred Sales Charge. If reflected, the load would reduce the performance quoted.

Morningstar Rankings[†]

Category: US OE Fund Muni National Short

	Rank	Percentile
1 Year	23/218	16
3 Year	41/206	25

Rankings are for Institutional Class and are based on total return excluding sales charges, independently calculated and not combined to create an overall ranking. For periods not shown, Morningstar does not provide rankings based on synthetic performance.

Lipper Rankings*

Category: Lipper Short Municipal Debt Funds

	Rank	Percentile
1 Year	24/133	18
3 Years	34/122	28

Rankings are for Institutional Class and are based on average annual total returns, but do not consider sales charges. Rankings for other share classes will differ due to differences in expenses, fees, or sales charges.

†Morningstar (as of September 30, 2022)

Morningstar rankings are based on a fund's average annual total return relative to all funds in the same Morningstar category. Fund performance used within the rankings, reflects certain fee waivers, without which, returns and Morningstar rankings would have been lower. The highest (or most favorable) percentile rank is 1 and the lowest (or least favorable) percentile rank is 100.

Other Cavanal Hill Funds

The Cavanal Hill Funds offer an array of equity, fixed income and money market funds for both retail and institutional markets and support a wide range of investment objectives. From conservative income to growth-oriented goals, we offer choice, flexibility and opportunity for diversification.

Investment Risks

Fixed income securities are subject to interest rate risks. The principal value of a bond falls when interest rates rise and rise when interest rates fall. During periods of rising interest rates, the value of a bond investment is at greater risk than during periods of stable or falling rates. Short-term investment-grade bonds offer less risk and generally a lower rate of return than longer-term higher yielding bonds. Bond funds will tend to experience smaller fluctuations in value than stock funds. However, investors in any bond fund should anticipate fluctuations in price, especially for longer-term issues and in environments of changing interest rates. The Fund's income may be subject to certain state and local taxes and, depending on one's tax status, to the federal alternative minimum tax.

*Lipper (as of September 30, 2022)

The Lipper ratings for **Preservation** reflect the funds' historical loss avoidance relative to other funds within the same asset class. Preservation ratings are relative measures, rather than absolute measures, and funds named Lipper Leaders for Preservation may still experience losses periodically; those losses may be larger for equity and mixed equity funds than for fixed income funds. The Lipper ratings are subject to change every month and are based on an equal weighted average of percentile ranks for the Expense metrics over three-, five-, and ten-year periods (if applicable). The highest 20% of funds in each peer group are named Lipper Leaders with a rating of 5, the next 20% receive a rating of 4, the middle 20% are rated 3, the next 20% are rated 2, and the lowest 20% are rated 1. The Cavanal Hill Ultra Short Tax-Free Income Fund, in Lipper's Short Municipal Debt Funds classification received the following ratings for the three-, five-, ten-year periods, respectively, for the A Shares: Preservation: 5(6274 funds), for the Inst Shares: Preservation: 5(6274 funds), for the Inv Shares: Preservation: 5(6274 funds).

The Lipper Mutual Funds Average is an equally weighted average of the mutual funds within their respective Lipper classification, adjusted for reinvestment of capital gains distributions and income dividends. Lipper ratings are not intended to predict future results, and Lipper does not guarantee the accuracy of this information. More information is available at www.lipperweb.com. Important Disclosures

¹ The 30-day SEC Yield is calculated by dividing the net investment income per share for the 30 days ended on the date of calculation by the offering price per share on that date. The figure is calculated according to a formula set by the SEC which requires use of a specific methodology for calculating dividends and interest earned, and expenses accrued, during the period. The standardized computation is designed to facilitate yield comparisons among different funds. Certain fund expenses may have been waived or reimbursed. Had waivers and reimbursements not been in effect, the SEC yields would have been 1.38% for A Shares, 1.37% for Investor Shares and 1.62% for Institutional Shares.

² The Bloomberg Barclays 1-Year Municipal Bond Index is an unmanaged index that includes bonds with a minimum credit rating of BAA3, are issued as part of a deal of at least \$50 million, have an amount outstanding of at least \$5 million, and have maturities of 1 to 2 years. The index is unmanaged and does not reflect the deduction of the expenses associated with a mutual fund, such as investment management and fund accounting fees. The Fund's performance reflects the deduction of fees for these services, but does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Investors cannot invest directly in an index.

³ Since December 31, 2017.

⁴ **Turnover Ratio** is a measure of trading activity for a rolling 12-month period represented by the percentage of a fund's assets that have changed over the course of the time period. **Duration** measures bond price volatility by measuring the length of a bond.
